STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claim recites a method of producing fuel injectors for internal combustion engine, each injector comprising an injector body having a seat; a valve body housed inside the seat so as to form an annular chamber for receiving high pressure fuel and a gap communicating with the annular chamber; and a seal for sealing the gap; the method being characterized by sizing the seal as a function of the deformation to which the seal is subjected during use of the injector so as to achieve a predetermined working life of the injector. This feature combined with other claimed elements are not taught in prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
